

SAP Customer Collections App

Helps business managers to streamline the credit management activities and make better financial decisions on the move

BUSINESS CHALLENGES

- ▲ Lack of real-time visibility into bills receivables process
- ▲ Invoice payments information typically not real-time leading to process inefficiencies
- ▲ Sales teams' inability to update information about customer accounts and credit lines, lost sales opportunities
- ▲ Manual and paper-driven systems – time consuming and inaccurate

BENEFITS AND FEATURES

- ✓ Enables managers to partial, single or multiple invoice payment transactions instantly
- ✓ Enables automate payment process and post cash journal entries
- ✓ Digital signature with electronic mailing of payment receipts
- ✓ Capable to check inventory on offline mode, improved visibility for field executives
- ✓ Informed decision making process
- ✓ Streamlined credit to cash management process
- ✓ Boosts sales lead generation
- ✓ Improved customer satisfaction
