

SALES APP SUITE

Designing selling experiences and drawing breakthrough customer experiences

- **Sales Order Overview** – The Sales Order overview lets you track and analyse pending sales orders, orders due for deliver, and other proceedings in the sales pipeline
- **Sales Order Approvals** – Empowering managers with delegated tools to ascertain and approve sales orders instantly
- **Sales Quotation Approvals** – Approve/reject sales quotations with windows and dashboards providing key insights of sales data
- **Sales Scheduling Agreement Approvals** – Enables to create an agreement with the customer for scheduling delivery quantities within requested date
- **Price Changing Approvals** – Enable managers and authorized users to review and approve price changes in sales orders
- **Credit Memo Approvals** – Approvers can review sales invoices and approve/reject the credit memo requests on-the-go.
