

# Direct Store Delivery App

Enables easy processing of sales, distribution and customer collection process with real-time visibility into inventory and customer worklist

## BUSINESS CHALLENGES

- ▲ Lack of flexible solutions to create sales and consignment orders
- ▲ Restricted accessibility to get real-time consignment status/information
- ▲ Manual handling of selling activities drawing significant delays
- ▲ Sales teams' inability to update information on customer accounts
- ▲ Difficulty to access credit information to check billing disputes, post manual cash journal entries delays DSD process

## BENEFITS AND FEATURES

- ✓ Perform endless sales and collection activities instantly
- ✓ Get real-time inventory updates from SAP backend
- ✓ Comprehensive visibility on customer accounts to make informed business decisions
- ✓ Efficiently manage and execute on-time deliveries with route optimization functionality
- ✓ Eliminate paper receipts through digital signature and furnish on-spot POD to customers
- ✓ Real-time monitoring of consignment status even on offline mode
- ✓ Automated payment process and manage cash facility to post cash journal entries quickly
- ✓ Odometer to track and monitor delivery time and distance and check fuel efficiency
- ✓ Effective delivery operations increases productivity and ROI
- ✓ High data accuracy improves customer satisfaction
