

Goods Receipt App

Equip your warehouse managers and logistic executives to process goods receipts and service confirmations instantly without logging into SAP

BUSINESS CHALLENGES

- ▲ Delays in performing goods receipt process resulting in blocked invoices
- ▲ Lack of real-time insights into inbound delivery process
- ▲ Manual inbound processing hampering the accuracy, speed and timeliness
- ▲ Inbound delivery process restricted to desktop leading to too many missed opportunities

BENEFITS AND FEATURES

- ✓ Enables warehouse docks to perform Goods Receipt and Return on-the-go
- ✓ Reduces delays in processing due to instant mobile notifications
- ✓ Retrieve material information quickly using Barcode scanner feature and eliminate manual errors
- ✓ "Custom search" functionality with search parameters, to search Purchase Orders with header, item and history details
- ✓ Gain real-time access to Goods Receipts data and reduce inefficiency in Supply Chain Cycle
- ✓ Ability to search and approve multiple documents with single clicks
- ✓ Speeds up Goods Receipt process & reduces backlogs
- ✓ Improves productivity and saves time
