

HR Suite App

A intuitive mobile app for employees to create and submit leave and travel requests for managers to review and approve them instantly

BUSINESS CHALLENGES

- ▲ Delays in submission of travel and expense reports
- ▲ Inability to track employee requests and take actions on the go!
- ▲ Cumbersome approval processes impacting the bottom-line of enterprise
- ▲ Manual leave management system resulting in high administrative costs
- ▲ Approval time delays causing unnecessary administrative backlog

BENEFITS AND FEATURES

- ✓ Instant HR approvals for employee requests
- ✓ Allows employee to track leave/travel information on the move
- ✓ Options to add custom notes along with approvals and requests
- ✓ Functions to view leave history and leave balances
- ✓ Allows to select destination, date of travel and estimated cost of travel requests
- ✓ Select and approve multiple requests in a single click
- ✓ Minimizes approval delays and administrative backlogs
- ✓ Significantly saves time and improves productivity
